# **KALEIDOSCOPE** *Composed by Nick Shavrick*

There's a place in my head  
I like to go when I am in my bed

A dreamworld where I roam free  
Everywhere I go in my sanctuary

I'm forever young forever strong  
Forever at peace and forever loved

In this place everything's pristine  
Where yellows turns gold and copper never turns green

Animals speak and I understand  
The language of trees and of every man

The colors that I see  
Are as vibrant as can be  
I can paint the picture only with my words  
A kaleidoscope of colors  
Only in my head  
Whether I'm awake or dreaming in my bed

Whether I'm awake or dreaming  
Whether I'm awake or dreaming  
Whether I'm awake or dreaming in my bed

There is a place I like to go  
When I'm awake and where the water flows

Sparkling shades of a sapphire blue  
And sometimes green with an emerald hue

As the sun begins to rise  
Light cascades to remove the night

Amber shades part the sky  
To reveal a truth hidden deep inside

What once was will always be  
He is always there even if you can't see

He's forever young forever strong  
Forever at peace and forever loved

The colors that I see  
Are as vibrant as can be  
I can paint the picture only with my words  
A kaleidoscope of colors  
Only in my head  
Whether I'm awake or dreaming in my bed

Whether I'm awake or dreaming  
Whether I'm awake or dreaming  
Whether I'm awake or dreaming in my bed

## **AMEN (THE BLESSING)** *Composed by Nick Shavrick*

There's a man that I met, kinda hard to forget  
Had a smile that could light up the world  
Ablaze were his eyes, had an iris of fire  
As they burned straight down through my soul

I asked for a blessing, from this holy man  
To pray to the ONE above  
Prayers for my family, prayers for my people  
Prayers for all that I love

I said Amen, I said Amen  
I said Amen, I said Amen  
I said Amen, I said Amen  
I said Amen, I said Amen

With his hands on my head, and his blessings all said  
Felt like a man who could take on the world  
My worries and fears, they had all disappeared  
Like a drifter moving to the next town

With a twinkle in his eye, he said his goodbyes  
That he had to be on his way  
He bid me farewell, now it's my story to tell  
Bout the man whose smile could light up the world

I said Amen, I said Amen  
I said Amen, I said Amen  
I said Amen, I said Amen  
I said Amen, I said Amen

There's a man that I met, that I'll never forget  
Had a smile that could light up the world  
He opened my eyes and made me realize  
That the blessings were always there

When you know how to find, the goodness inside  
Of every man, woman, and child  
Then u can be the one to shine like the sun  
And be THE SMILE that could light up the world

I said Amen, I said Amen  
I said Amen, I said Amen  
I said Amen, I said Amen  
I said Amen, I said Amen

I said Amen, I said Amen  
I said Amen, I said Amen  
I said Amen, I said Amen  
I said Amen, I said Amen

## **THE BOY I USED TO BE** *Composed by Nick Shavrick*

Today's the day I will make a brand new start  
Picking up the pieces of a puzzle I completed  
That I just tore apart

Today's the day I will embrace who I've become  
Courageous advantageous as I overcome my failures  
Slowly one by one

I still remember the boy I used to be  
Back when I was young invincible and free

Yeah I still remember the boy I used to be  
And I wonder if he'd recognize me?  
Yeah I still remember the boy I used to be  
And I wonder if he'd recognize me?

It's funny when we're young  
all we want to be is grown up  
Then the older that we're getting we begin to start forgetting  
We wish we can turn back the clock

It's sad to see a man forget the ones he loves  
Fragmented bits and pieces  
Of a lifetime of experiences  
that have come and gone

I still remember the boy I used to be  
Back when I was young invincible and free

Yeah I still remember the boy I used to be  
And I wonder if he'd recognize me?  
Yeah I still remember the boy I used to be  
And I wonder if he'd recognize me?

**MEKOL MELOMDAI** *Composed by Avraham Rosenblum*

Well my heart's door, is wide open  
Teach me to love, teach me to love

Help me fix, what I have broken  
Teach me to learn, teach me to learn

All my shadows, follow closely, but they fade in your light  
Mekol melomdai, mekol melomdai, hiskalti hiskalti

There is no secret, I'm protecting  
Teach me to love, teach me to love

In your wisdom, you'll detect it  
Teach me to learn, teach me to learn

You say darkness has its reasons, and it helps shape the light  
Mekol melomdai, mekol melomdai, hiskalti hiskalti

Well my heart's door, is wide open  
Teach me to love, teach me to love

Help me fix, what I have broken  
Teach me to learn, teach me to learn

Your a beacon, on a hill, from a new world, better still  
Where there's hope, where there's light, where there's peace  
Mekol melomdai, mekol melomdai, hiskalti hiskalti

## **GOLD STARS** *Composed by Nick Shavrick*

I open the window  
and stare into the mist  
Silver clouds cloud my vision  
It's like staring into the abyss

I wish the sun was shining  
Its golden rays to comfort me  
Like a white veiled bride hidden behind  
Like a curtained symphony

What would it be like  
If the stars just all aligned  
What would it be like to not feel pain or hunger  
What would it be like if our future shined as bright as  
Gold stars in a sunny sky  
Gold stars in a sunny sky

I opened a locked door  
With a key I thought I lost  
Inside I found these feelings  
and emotions I thought were gone

Life has not been easy  
But I still cherish every moment  
In the blink of an eye life can pass me by  
Like a small wake in the ocean

What would it be like  
If the stars just all aligned  
What would it be like to not feel pain or hunger  
What would it be like if our future shined as bright as  
Gold stars in a sunny sky  
Gold stars in a sunny sky

I kept a memento  
To remind me of a trip  
Memories of better days  
Days that seem to have passed beyond my grip

It's good to be reminded  
To live life to its fullest  
To be grateful for the simple things  
Most people don't even notice

What would it be like  
If the stars just all aligned  
What would it be like to not feel pain or hunger  
What would it be like if our future shined as bright as  
Gold stars in a sunny sky  
Gold stars in a sunny sky

**STRANGER OR ANGEL** *Composed by Nick Shavrick*

Driving up north through the mountains  
Another 500 miles to go  
The car started shaking  
Like a bass filled room  
I pulled off into the unknown

At a gas station in the middle of nowhere  
A flat tire on the side of the road  
There is no one around  
Not a soul to be found  
It's just us here alone

A stranger or angel  
I pray for a miracle  
Help me in my time of need  
If anyone would help me  
Then I'll pay it forward  
To someone less fortunate than me

A tow truck pulls up right beside me  
To fill up his tank and go  
I can't believe what I'm seeing  
A mirage or a vision  
I never even picked up the phone

I said hey man I could use some assistance  
I can pay you whatever I have  
He said I don't need your money  
But I'll do what I can  
To get you back, back on your way

A stranger or angel  
This feels like a miracle  
Helping me in my time of need  
Not taking any money  
So I'll pay it forward  
To someone less fortunate than me

I said the world needs more people in it like you  
Then I think it would be a much better place  
If everyone cared  
And so easily shared  
Treat others how they treat themselves

He said there's not a lot of people out there like me  
But there's a reason I am this way  
There's been times I've had nothing  
And wish I had help  
I do for others as I'd want for myself

A stranger or angel  
This feels like a miracle  
Helping me in my time of need  
Not taking any money  
So I'll pay it forward  
To someone, someone  
Less fortunate than me

# Love & Essence *Composed by Nick Shavrick*

Woah ho oh ho ho  
Woah ho oh ho  
Woah ho oh ho ho  
Woah ho oh ho

When you're down and out  
And you can't seem to face  
What lies ahead  
But it's not everything or nothing  
More like a little bit of something  
More like a little bit of something

As I look towards the sky  
With my eyes open wide  
Hoping to catch just a glimpse of his greatness  
All my tears they fall like rain  
You had the wind dry my face  
Healing my heart filling my soul with his love and essence

Woah ho oh ho ho  
Woah ho oh ho  
Woah ho oh ho ho  
Woah ho oh ho

Imagine you were three again  
Playing in a box full of sand  
Without a worry in the world  
Just living in the moment  
As the world keeps on spinning in orbit  
As the world keeps on spinning in orbit

As I look towards the sky  
With my eyes open wide  
Hoping to catch just a glimpse of his greatness  
All my tears they fall like rain  
You had the wind dry my face  
Healing my heart filling my soul with his love and essence

Woah ho oh ho ho  
Woah ho oh ho  
Woah ho oh ho ho  
Woah ho oh ho

Every day is blessing  
Filled with something to appreciate  
Be grateful for what you got  
And not what you don't  
Money is not what makes you a rich man  
Money is not what makes you a rich man

As I look towards the sky  
With my eyes open wide  
Hoping to catch just a glimpse of his greatness  
All my tears they fall like rain  
You had the the wind dry my face  
Healing my heart filling my soul with his love and essence

Woah ho oh ho ho  
Woah ho oh ho  
Woah ho oh ho ho  
Woah ho oh ho

# Hope Found Me *Composed by Nick Shavrick*

Feeling like..

A teardrop in the ocean, or a needle in the hay  
A blade of grass on a prairie, or a star light years away

A grain of sand in hourglass, as time slowly slips away  
Mundane thoughts with my shadow, on a wall painted gray

But I found hope, or maybe hope found me  
I found hope, and serenity

I found hope, or maybe hope found me  
I found hope, and serenity

A cloudy morning coffee, before a summer rain  
Thinking about tomorrow, while forgetting about today

Cosmic calculations, running through my brain  
This solitary solitude, might drive a man insane

But I found hope, or maybe hope found me  
I found hope, and serenity

I found hope, or maybe hope found me  
I found hope, and serenity

I traveled across the country, I flew across the plains  
I ran away from everything, to try and mask the pain

No matter how far I'd go, you were always by my side  
My shadow my companion, from whom I could never hide

But I found hope, or maybe hope found me  
I found hope, and serenity

I found hope, or maybe hope found me  
I found hope, and serenity

# **BRING THEM HOME** *Composed by Nick Shavrick*

Yancha Hashem Hashem Biyom Tzara (May the Lord answer you on a day of distress)

Yisagevcha Shem Elokay Yaakov (May the name of the God of Jacob fortify you).

Bring Them Home  
Bring Them Home  
Bring Them Home  
Bring Them Home

The worlds upside down as we mourn our fallen  
We've fallen so far from grace  
Our father in heaven has heard us calling  
Moshiach is on his way

Bring Them Home  
Bring Them Home  
Bring Them Home  
Bring Them Home

# **DAZED & CONFUSED** *Composed by Nick Shavrick*

There are days that come and days that go  
Days I wish I'd never known  
Dazed and confused I start again  
Talking to God like a long lost friend  
Talking with an old friend

Unsure where I'm going but I know where I've been  
There are mountains to climb and oceans to swim  
Dazed and confused I start again  
Talking to God like a long lost friend  
Talking with an old friend

I'll write as I roam  
My tales to be told  
As my story unfolds  
Oh what sights to behold

As the seasons come and the seasons go  
With the leaves left covered in ice and snow  
Dazed and confused I start again  
Talking to God like a long lost friend  
Talking with an old friend

I breathe with the breeze as the cool wind blows  
Everywhere I roam his beauty shows  
Dazed and confused I start again  
Talking to God like a long lost friend  
Talking with an old friend

I'll write as I roam  
My tales to be told  
As my story unfolds  
Oh what sites to behold

# **BURNING SKY** *Composed by Nick Shavrick*

I saw the sky burning across the horizon  
Is the world on fire I'd like to know  
Clouds are gathering a storm is brewing  
Will the rain fall I'd like to know

Wash everything away  
Wash everything away  
Wash everything away  
Wash away

As I turn to you I will start anew Teshuva Repent Return  
As I turn to you I will start anew Teshuva Repent Return  
As I turn to you I will start anew Teshuva Repent Return  
As I turn to you I will start anew Teshuva Repent Return

As I start a new day in the morning I pray  
Asking God for help  
Change is a hard pill to swallow but I will  
Because in God I have faith

He'll wash everything away  
He'll wash everything away  
He'll wash everything away  
He'll wash away

As I turn to you I will start anew Teshuva Repent Return  
As I turn to you I will start anew Teshuva Repent Return  
As I turn to you I will start anew Teshuva Repent Return  
As I turn to you I will start anew Teshuva Repent Return

I saw the sky burning across the horizon  
Is the world on fire I'd like to know

## Take Me Home, Country Roads (G)

Almost heaven, West Virginia  
Blue Ridge Mountains  
Shenandoah River  
Life is old there  
Older than the trees  
Younger than the mountains  
Growin like a breeze

Country Roads, take me home  
To the place I belong  
West Virginia, mountain momma  
Take me home, country roads

All my memories gathered round her  
Miners lady, stranger to blue water  
Dark and dusty, painted on the sky  
Misty taste of moonshine  
Teardrops in my eye

Country Roads, take me home  
To the place I belong  
West Virginia, mountain momma  
Take me home, country roads

I hear her voice  
In the mornin hour she calls me  
The radio reminds me of my home far away  
And drivin down the road I get a feelin  
That I should have been home yesterday, yesterday

Country Roads, take me home  
To the place I belong  
West Virginia, mountain momma  
Take me home, country roads

Country Roads, take me home  
To the place I belong  
West Virginia, mountain momma  
Take me home, country roads  
Take me home, now country roads  
Take me home, now country roads
